Smart Learning Solutions

Remedial Teaching with a Difference

All Smart Learning Solutions, we aim to help children with coordination, learning difficulties and behavioural problems. It is important to identify the source of the problem as learning is not all in the mind and physical factors could be hindering higher academic progress. If your child is having difficulty at school, a full diagnostic assessment will enable us to evaluate and tailor make a programme to suit higher specific needs.

Does your child experience any or all of these problems:

- Difficulties in Reading, Writing and/or Spelling
- Poor handwriting skills
- Dyslexia
- Dyspraxia
- Attention Deficit Disorder
- Concentration problems
- Seems to be disorganised and has difficulty staying on task
- Poor memory
- Difficulty in Mathematics
- Coordination difficulties
- General Academic under-achievement

If you answered yes to one or more of the problems listed above, contact Smart Learning Solutions to arrange a consultation
